

VERNACULAR VIDEO MISSION INTERNATIONAL CAPACITY-BUILDING PROJECT TRAINING NATIONALS FUND

PROJECT NO. 2013-VVMI-108

As VVMI's ministry partners continue to press into new language areas, the need to get more nationals trained in script writing, video production processes, and the use of technology becomes increasingly apparent. Our partners are also crying for training in the basics of handling the Bible and leadership. Besides the work of the Holy Spirit, VVMI believes that heart language media and Scripture are key to people's understanding the truth of God's Word, especially in oral cultures where reading is uncommon.

Very simply, this fund will help VVMI fulfill its mission of partnering with and equipping ethnic Christians for sharing the Gospel through video and other media in their common language by helping provide for:

- Travel, food, and lodging expenses related to training events
- Some basic supplies needed by the indigenous attendees, such as paper, pens, training aids, Bibles, DVD's, etc.
- Training registration fees for formal events outside of training provided directly by VVMI staff or volunteers
- Facility use fees, if any; and
- Passport and visa assistance, if necessary.

VVMI's assisting its ministry partners in the above ways has actually turned

out to be a means to help them empower local churches in their ministry spheres to make disciples as Jesus commanded – and God is blessing those efforts. So, it is essential for us to continue to be proactive in seeing that more and more nationals are invested in for God's glory and the increase of His Kingdom!

VVMI partners with and equips ethnic Christians who proclaim the Gospel through video and other media in their common language.
