VVM-I & VVM-CMI PARTNERSHIP PROJECT
LOWER APAYAO CMI PROJECTION SYSTEM
PROJECT NO. 2016-VVM-091**

HELP EQUIP A NEW VVM-CMI TEAM IN A REMOTE AREA!

Vernacular Video Ministry – Church Mobilization Initiative (VVM-CMI), headquartered in Baguio City, Luzon, Philippines, has been VVM-I’s ministry partner from the beginning. VVM-CMI has been “mobilizing” local church groups – empowering them with video and Scripture tools – in the mountain provinces of northern Luzon since mid-2008. Starting in 2010, the VVM-CMI expanded to the region of Palawan and other islands southwest of Luzon. Now, in 2016, eighteen (18) active mobilized partner groups with hundreds of indigenous Christians are working across language and denominational lines for the purpose of sharing the Gospel through heart language videos and Scripture. New Bible study groups and church plants are a normal result as local churches utilize media tools to assist their mission efforts.

The Lower Apayao CMI team was mobilized in February 2016 for reaching the northwestern part of Apayao Province, which is located in the far northern part of Luzon Island (see map at right). Apayao is still very rural and agricultural, with rice, corn, and bananas being the primary cash crops. Most places still do not have electricity, and remote areas are only accessible on foot. The native dialect is Isneg, but Ilocano is the trade language that most people use. Only a few small evangelical churches and groups are ministering there.

The Kalinga CMI Team first introduced the Lower Apayao to VVM-CMI film showings in early 2015. It was then the believers there saw the big impact of original, culturally relevant Christian vernacular videos on the local people, both pagan and Christian alike. They saw that in a place where true understanding and belief in the Lord Jesus Christ’s redemptive work is less understood and heard, Gospel film showing tools used by local churches could play a very important role in reaching people with the love of Jesus.
